CHRONIC CARE BENEFIT⁵

Ability to receive an advance, or acceleration, of a portion of the death benefit, paid in a lump sum. This can help reduce financial stress if the insured becomes Chronically Ill.

FOR IMPORTANT INFORMATION, PLEASE SEE THE BACK PAGE.

¹ LIMRA, Facts About Life, 2021

² Assuming premiums are paid on time and no loans or surrenders are taken.

³ Dividends are not guaranteed. The certificate is eligible to earn dividends beginning on the second anniversary.

⁴ Access to cash values through borrowing or partial surrenders will reduce the policy's cash value and death benefit, increase the chance the policy will lapse, and may result in a tax liability if the policy terminates before the death of the insured.

⁵ The acceleration of the death benefit is intended to be tax advantaged under §101(g) of the Internal Revenue Code. The insured must be chronically ill, as defined in 26 USC 7702B. Certificate owners should seek tax advice from their tax advisor regarding an acceleration of their death benefit. Receipt of accelerated death benefits may be taxable. There is no premium required for this benefit, however, there is a fee if the provision is exercised.

Accelerating the payment of the certificate death benefit may affect eligibility for public assistance programs, including MEDICAID and SUPPLEMENTAL SECURITY INCOME ("SSI"). Contact the Medicaid Unit of the local Department of Public Welfare and the Social Security Administration Office for more information.

An acceleration of the death benefit will reduce the certificate's death benefit, any cash value and any loan values. The certificate's premium payments will be based on the reduced amount of insurance at the current rate.

Please carefully read the accelerated death benefit disclosure provided at application. Restrictions and limitations will apply. The product and/or certain features may not be available in all states. State variations will apply.
